

The Tune Würger Skyline seatpost clamp is a high tech product, that requires attention and care. Please read the entire manual carefully before using the seatpost.

Technische Daten:

Material	carbon, aluminium
Sizes	31.8/ 34.9/ 38.0 mm
Tightening torque	max. 6.0 Nm
Weight	ab 4.5 g (31.8 mm-Version)

Mounting the Würger Skyline

- Use a **vernier caliper** to measure the **outside diameter** of your **seat tube** at several locations. The measured diameter should be equal to the inner diameter of your Würger.
- If this is not the case, the Würger Skyline can **not** be used!
- The Würger Skyline could be damaged if too much force is applied to „bend open“ or close. In this case, you should consult your bicycle retailer.
- The Würger Skyline should be assembled without grease or assembly paste between frame and seatpost clamp.
- When assembling with a carbon frame, we recommend using carbon assembly paste between frame and seatpost. Carbon assembly paste increases friction and hence reduces the required torque.

- **Important:** The assembly must be performed like this otherwise there could be insufficient clamping force or the Würger Skyline could be damaged.
- No alterations are to be made to the Würger Skyline. Any alterations will void warranty.

Service

Warranty:

Tune grants a two year warranty from the date of purchase on material defects and production errors. On bearings, rims and spokes we grant a one year Warranty, as these are wear parts. Claims can only be made if a copy of an original dealer invoice is presented.

There is no claim for warranty services in case of:

- normal wear
- improper use or careless treatment
- disregard of service instructions
- inappropriate repair, assembly, or maintenance works or negligence

Warranty claims have to be sent to the local Tune distributor and are subject to the assessment of Tune. Based on this warranty, the company Tune is not liable for compensation, especially not for indirect damage caused by accidents, collateral damage and consequential damage. All anodized parts can bleach in sunlight.

Crash Replacement:

Tune offers a Crash Replacement in addition to the legal warranty. The service can be engaged if your Tune product is damaged and not be rideable any more, due to a crash, accident or overload .

Conditions:

- Due to our huge products variety, the discount we can give, is assessed individually for every case.
- The damaged part is replaced by the same model. Tune reserves the right to replace the damaged part with an equal alternative.
- The damage has to affect the functionality of the component (optical damage is excluded).
- Damaged parts pass into the ownership of Tune.
- The Crash Replacement offer does not cover the costs of transport and labour.
